

# THE 1939 ATTACK

## INTRODUCTION

This introductory scenario covers the first 4 weeks of the initial Soviet onslaught on Finland in December 1939. Can the Finns hold beyond expectations and receive the long-awaited Allied intervention? Or will the Russian Bear crush them and force them to relinquish their border lands?

The 1939 Attack scenario lasts only 4 turns, each representing one week of December 1939. One player represents the tiny Republic of Finland, the other has the Soviet Union's land and air forces.

- The **Soviets** have numerous but poorly led and badly organized forces at the start of the game, but their reinforcements are impressive.
- The **Finns** must hold desperately against the initial onslaught and vastly superior strength of their enemy, thanks to their superior quality and ideal defensive positions, the Finns hope to buy time until threats of Allied intervention discourage the Russian Bear.

Be careful of the numerical weakness of the Finnish side, as well as the uncertainty of Stalin's resolve on the other...

The game's event cards allow full replay ability thanks to the numerous various situations that they create on the diplomatic, military, political or economical fields
